

What does it mean to “Get your 10”?

Get 10 for Public Ed is a campaign developed by the Members of the NEA Board representing all Retired Membership and other NEA-Retired leaders.

We ask that you identify 10 individuals who you will encourage to vote. Spark them to obtain an early ballot and then either mail it early before October 15 or get their ballot to the poll.

That’s it! We ask that you track how many individuals you have helped get their ballots to the polls by tracking your numbers (no names!) here.

<https://www.surveymonkey.com/r/NEA-RETIRED-GOTV>

Each individual who clicks the above link and enters the number of ballots you are “getting” to the polls will be entered to win one of 7 brand new, state-of-the-art iPads with internet access, Zoom capability, email and so much more!

It is imperative that you follow the above link to the tracker so that we can monitor the success of this campaign.

Please ask each of your 10 to find their own “10” and to give them the link above so that they can track their own numbers (no names!)

Why are we tracking the numbers of ballots that we influence getting to the polls?

We want America to know that not only do retirees vote in the highest numbers, we also influence others to vote in some of the highest numbers.

When elected policy-makers know the power we use, they will no longer ignore our demographic.

Try to visualize this Headline on November 4, the day after the election:

**NEA-Retired members
influenced many thousands
to vote.**
